### SKILLS

UI/UX Design  
Figma  
Adobe XD  
Sketch  
User Research  
Prototyping  
Wireframing  
Java  
HTML & CSS  
Spring Boot Framework  
MySQL Database

### EDUCATION

Bachelor Of Technology,  
Information Technology, 2021

DGPA: 9.32 | St. Thomas' College of  
Engineering and Technology

### COURSES

Google UX Design Professional  
Certificate, Coursera, 2024

Creative UI/UX Developer focused on designing intuitive, user-centred experiences. Skilled in improving existing applications, creating user flows and wireframes, and delivering polished interfaces that balance aesthetics, functionality, and business goals.

### PROFESSIONAL EXPERIENCE

#### **UI/UX Designer | FEB 2025 – PRESENT | WEBLYNKS**

Designed and delivered end-to-end website experiences for **Akashdeep Design Studio** (Architecture), **EcoPath** (Sustainable Road Infrastructure), and **House of Shaarag** (Luxury Architecture & Interior Studio).

- Led client discovery sessions to gather and **analyse business requirements**, brand vision, and user expectations.
- Translated requirements into **structured UX documentation**, user flows, and interface specifications.
- Conducted **user research** and applied insights to improve usability and optimize user journeys.
- Created **wireframes**, **interactive prototypes**, and **high-fidelity UI designs** using **Figma**, **Adobe XD**, and **Sketch**.
- Designed **responsive layouts** with strong visual hierarchy, **refined aesthetics**, and brand-aligned storytelling.
- **Integrated animations** and interactive elements to enhance engagement and create premium digital experiences.
- Collaborated with developers to ensure accurate implementation of design systems and interaction models.

#### **UI/UX Design Trainee | MAY 2024 – JAN 2025 | SKILL TRANSITIONING**

- Completed the **Google UX Design Professional Certificate** while transitioning into UI/UX design.
- Dedicated this period to **hands-on practice** by redesigning and **recreating interfaces** inspired by platforms like **YouTube**, **Talkies**, **Spotify**, and **Swiggy** to sharpen visual design and interaction skills.
- Focused on improving layout structure, visual hierarchy, spacing systems, and mobile responsiveness through practical experimentation.
- Built a **working portfolio to apply UX thinking** beyond theory and prepare for real client projects.

#### **Junior Software Engineer | OCT 2021 – MAY 2024 | COGNIZANT TECHNOLOGY SOLUTIONS**

- Conducted **Root Cause Analysis (RCA)** to identify defects and debug applications, ensuring stability across applications.
- Developed and enhanced **RESTful APIs** using **Java 8** and **Spring Boot** to implement client-requested features and change requirements.
- Performed local **testing, validation** and **bug fixes** prior to deployment.
- Built **responsive user interfaces** using React Bootstrap, ensuring cross-device compatibility and improved user experience.
- Managed assigned tasks in JIRA, consistently delivering client requirements within defined timelines.
- Collaborated with cross-functional teams to maintain system reliability and improve overall application performance.
